a huge profit!”**

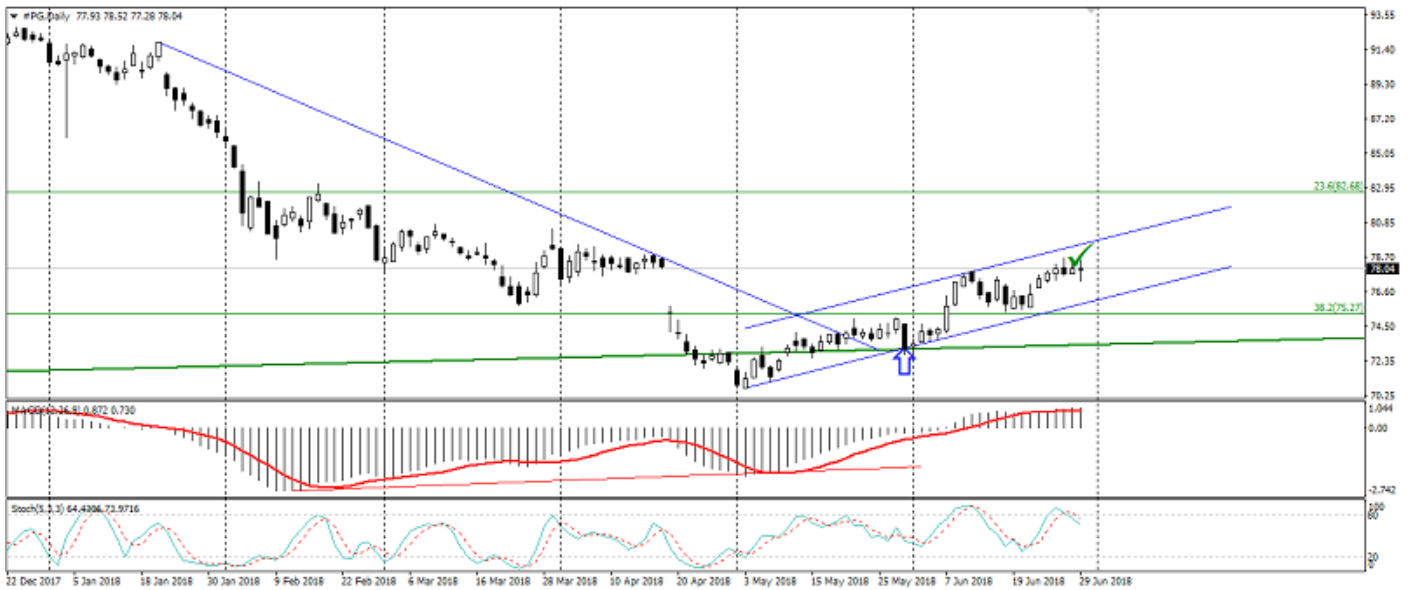

The essence of the idea - the purchase of shares
of the P&G company.

The recommended amount for start is – 10 000\$.

The profit is – from 250% to 500% of the lot size.

The idea is valid from – June, 1 till 30, 2018.

Expectations on the idea of [«The consumer giant brings a huge profit!»](#) justified themselves. Technically, first a support test took place at 73.20-00, then the basic expectations started. The first conservative goal of 78.00 was achieved in first days of the idea's launch. The second 80.00-82.00 remains open. At the same time, due to finish of the working out of the main time, it is worth closing the positions on this investment idea, limiting ourselves to a conservative profit. Further growth in P & G shares is possible, but will not be accompanied.

This investment idea, with the recommended entry points and the investment amount, brought up to 40% of the deposit size or about 300-350 points of profit for the month.
